# FORGING THE FACE OF METAL CUTTING.

**We've been breaking the mould since 1992. We supply you with heavy duty power tools, backed by our 3-year guarantee & 5-star customer service, for a fair price. Who said you can't have it all?**

Our tools are born out of the UK's steel city – Sheffield. Our in-house design & engineering team have crafted a range of heavy-duty power tools dedicated to improving the way we cut steel & other metals. Whether you're cutting with our advanced TCT, dry cut technology or drilling with our Heavy-Duty mag drills & cutters – you can rely on your Evolution Power Tools to work just as hard as you do.

**DESIGNED  
IN THE UK**

**You work in a tough environment and so do your tools. That's why we've designed and engineered a range of Heavy-Duty power tools which stand up to the toughest tests.**

We've combined punishing high-torque motors, superior build quality & market leading innovation to make power tools that can handle anything you throw at them. They've earned their Heavy-Duty badge by enduring relentless testing and now they're ready to be put to good use.

**Try them for yourself.**

**All Evolution Power Tools are backed by a 3 year guarantee so you can relax knowing that we've got your back.**

We don't expect you to need it... but if the worst was to happen then our UK based maintenance team will have your tool back on top form in no time so you can get back to what's important.

**Want to speak to someone about Evolution Power Tools? Our friendly UK based customer service team are just a phone call away.**

Based in Sheffield, they are always on hand to give you advice or help with your Evolution products. Give us a call on 0114 251 1022.

# CUT FAST. CUT COOL. CUT CLEAN.

Our advanced TCT technology is designed to boost your productivity. Unlike abrasive discs that wear down through use, our TCT blades maintain both cut quality & capacity for the full life of the blade. Not only that, our blades can last longer than 20 abrasive discs\* giving you a lower cost-per-cut compared to abrasives.

## 4 X FASTER.

**Cut up to 4 x faster than an abrasive disc with Evolution carbide tipped blades.**

Their super tough tungsten carbide teeth and thin kerf design allows for fast cutting through a range of materials.

## BURR FREE CUTS.

**Our saw blades give you a clean, smooth cut first time every time.**

Burr free cuts that need next to no filing or re-work save you time and means you can take the workpiece straight to the welding table.

## CUT SAFER.

**Say goodbye to excessive sparks, heat & dust.**

Unlike abrasives, our blades give you a cool to the touch cut and emit virtually no sparks which can lead to fires. Plus, TCT blades aren't sacrificial so you don't need to worry about breathing in harmful dust or wonder if the blade is about to shatter...

## MORE CUTS PER £.

**Our TCT blades offer a lower cost per cut vs abrasive discs.**

One Evolution blade can last as long as 20 abrasive discs which mean they're more economical and save you money.

THE INDUSTRY'S FIRST

# 355mm METAL CUTTING MITRERING CHOP SAW

## COMPATIBLE BLADES:

355mm Mild Steel, Thin Steel, Stainless Steel, Aluminium.

See page 12 for full details

Motor Power	2200W (220-240v) 1600W (110v)
Speed	1550rpm
Product Weight	34kg
Power Cable	3m Rubber
Warranty	3 Years
Mild Steel Plate (Max thickness)	12mm
Minimum Cut Off Piece Length	8mm
Mitre Capacity	46° - 46°
Product Dimensions (H x L x W) mm	450 x 760 x 584mm
Included Blade	355mm Mild Steel TCT Blade
Blade Arbor Size	25.4mm
Blade Tooth Count	66

 **DESIGNED  
IN THE UK**

Powerful 2200W motor

Head lock-down pin

3-position head with glide rails  
& locking pin for easy setting

Quick-release top clamp and  
3 x V-block adapters included

Knurled front clamp feet and top  
clamp bar for secure clamping

Chip deflector

Quick-release front clamps with heavy-duty  
ACME lead screw

Full-width clamp bar allows free  
horizontal movement of the front clamps

46°L - 46°R mitre capacity  
with positive stops at  
0°, 15°, 22.5°, 30° & 45°

Height adjustable front clamp bar  
features positive stops on vertical posts  
and thumb screws to secure

Knurled fence to securely  
grip the work piece

Holes in base to fit  
bench dogs

Dual sliding front clamps with  
forward, backward, up, down, left  
& right movement.

46° - 46° mitering base - Rotate  
the saw, not the workpiece saving  
time and space.

3-position cutting head find the  
optimal blade path through big  
and small pieces for maximum  
blade life

**S355**

# 355MM METAL CUTTING CHOP SAW

## COMPATIBLE BLADES:

355mm Mild Steel, Thin Steel, Stainless Steel, Aluminium.

See page 12 for full details

Motor Power	2200W (220-240v) 1800W (110v)
Speed	1550rpm
Product Weight	23kg
Power Cable	3m Rubber
Warranty	3 Years
Mild Steel Plate (Max thickness)	12mm
Minimum Cut Off Piece Length	8mm
Mitre Capacity	0° - 45°
Product Dimensions (H x L x W) mm	410 x 530 x 310
Included Blade	355mm Mild Steel TCT Blade
Blade Arbor Size	25.4mm
Blade Tooth Count	66

 **DESIGNED  
IN THE UK**

Integrated  
Carry Handle

Ergonomic, ambidextrous  
handle & trigger reduces  
user fatigue

Oilite bushes and  
solid shaft increases  
accuracy with smooth  
operation and  
no play

Head lock  
down pin

Bench  
mounting  
holes in base

Heavy-Duty single piece cast  
aluminium alloy base with coated  
steel wear plate for extended tool life

Mitre angles are cast into  
the base for clear angle setting

Adjustable,  
3 position fence with  
mitre functionality

Cast iron fence & vice  
for secure & accurate  
workpiece clamping

Fast 45° angle setting  
with locking pin

Quick-release  
vice for fast clamping  
of any workpiece

Heavy-duty  
20mm square  
thread bar

Built in carry  
handles in base for  
manoeuvrability

Hex key included with  
on-board tool storage

V-block adapter for secure  
clamping of round tube

Integrated chip  
collection with high  
capacity chip tray

Sight shield directs chips  
away from the user

# 185MM METAL CUTTING CIRCULAR SAW

## COMPATIBLE BLADES:

185mm Mild Steel, Stainless Steel,  
Thin Steel & Aluminium.

See page 12 for full details

## KEY FEATURES:

- ✓ Lightweight, portable design for cutting in and out of the workshop.
- ✓ Ergonomic, soft grip T-handle for maximum control & precision.
- ✓ 0° - 45° bevel capacity and adjustable blade height with quick release thumb levers for quick adjustments.
- ✓ Channelled air flow and glass sight shield gives you optimum cut line visibility.
- ✓ Parallel edge guide included for accurate straight line cutting.

Motor Power	1600W
No Load Speed	3700rpm
Product Weight	5.2kg
Power Cable	3m Rubber
Warranty	3 Years
Maximum Bevel	45°
Electronic Blade Brake	Yes
Product Dimensions (H x L x W) mm	250 x 310 x 240
Included Blade	185mm Mild Steel TCT Blade
Blade Arbor Size	20mm
Blade Tooth Count	40

# S210

## CCS

# 210MM METAL CUTTING CIRCULAR SAW

**DESIGNED IN THE UK**

**TRACK ADAPTER AVAILABLE**

See page 15 for full details

### COMPATIBLE BLADES:

210mm Mild Steel, Stainless Steel, Aluminium.

See page 12 for full details

### KEY FEATURES:

- ✓ Engineered for maximum performance with a high torque 1800w motor with advanced motor cooling. Features intelligent overload system with visual warning for extended tool life.
- ✓ Improved chip collection keeps your workspace clean and free from debris by collecting up to **60% more chips** than its predecessor (EVOSAW230).
- ✓ Guard retraction lever allows you to safely retract the blade guard while keeping your hands on the handles. Ideal for starting cuts in thin materials.
- ✓ LED work light increases cutline visibility in low light environments and casts a clear shadow of the blade to show the cutting path to aid cutting accuracy
- ✓ Full length parallel edge guide included to aid ripping down sheet steel. Or add the track adaptor for even more accuracy.

Motor Power*	230v - 1800w, 110v - 1600w
No Load Speed	2800rpm
Product Weight (Machine only)	8.1kg
Power Cable	3m Rubber
Warranty	3 Years
Maximum Bevel	0°
Product Dimensions (H x L x W) mm	280 x 500 x 290mm
Included Blade	210mm Mild Steel TCT Blade
Blade Arbor Size	25.4mm
Blade Tooth Count	50

**S28  
MAG**

# 28MM INDUSTRIAL MAGNETIC DRILL

## ACCESSORIES INCLUDED

- ✓ Cooling Fluid Bottle
- ✓ 1/2" Keyed Chuck, Key & Adapter
- ✓ Safety Strap
- ✓ Safety Guard
- ✓ Hex Keys
- ✓ Carry Case

## RANGE OF PREMIUM ANNULAR CUTTERS AVAILABLE

See page 13 for details.

## KEY FEATURES:

- ✓ Simple push-fit coolant system reduces heat & maximises cutter life.
- ✓ Textured, tri-spoke spindle handle gives ultimate control while drilling.
- ✓ Super smooth double dovetail slides for accurate, smooth operation.
- ✓ Supplied in robust carry case.
- ✓ Overload shut off system to prevent motor damage.
- ✓ Integral cutter arbor for accuracy.

Motor Power	1200W
Speed	450rpm
Product Weight	12kg (Drill only)
Power Cable	2.5m
Warranty	3 Years
Maximum Travel	250mm
Magnet Adhesion	1300kg f
Minimum Plate Thickness	10mm
Magnet Dimensions (H x L x W) mm	40 x 180 x 90mm

# EVOMAG

## 42

# 42MM INDUSTRIAL MAGNETIC DRILL

### ACCESSORIES INCLUDED

- ✓ Cooling Fluid Bottle
- ✓ 1/2" Keyed Chuck, Key & Adapter
- ✓ Safety Strap
- ✓ Safety Guard
- ✓ Hex Keys
- ✓ Carry Case

\* Annular cutter not included

### KEY FEATURES:

- ✓ Simple push-fit coolant system reduces heat & maximises cutter life.
- ✓ Textured, tri-spoke spindle handle gives ultimate control while drilling.
- ✓ Super smooth double dovetail slides for accurate, smooth operation.
- ✓ Powerful 2 stage magnet for accurate drilling.
- ✓ Supplied in robust carry case.
- ✓ Overload shut off system to prevent motor damage.
- ✓ Integral cutter arbor for accuracy.

Minimum Plate Thickness	10mm
Magnet Dimensions (H x L x W) mm	40 x 180 x 90mm

# ADVANCED TCT BLADES

**We make a range of high performance, industrial quality carbide tipped blades.**

All our blades feature a hardened Japanese steel body plate to limit blade warp, thin kerf design to maximise blade life & high density tungsten carbide teeth that stay sharper for longer.

<b>Steel</b>	Designed specifically to cut steel. Triple chip ground lead tooth followed by flat top raker gives optimum cutting speed and accuracy through steel.
<b>Thin Steel</b>	Designed specifically to cut Thin Steel up to 3mm thick. Modified alternating top bevel tooth design is perfect for cutting thin steel and minimises the blade grabbing.
<b>Stainless Steel</b>	Alternating height, triple chip ground teeth with aggressive geometry designed specifically to cut 302, 303 & 304 grade stainless steel.
<b>Aluminium</b>	Designed specifically to cut Aluminium. Triple chip ground tooth cuts the aluminium then the flat tooth clears debris from the cut to stop the blade clogging up.

# PREMIUM ANNULAR CUTTERS

**Crown your mag drill with our premium quality annular cutters.**

These cutters can save you time and money when compared with traditional twist drills. They only cut the periphery of the hole which extends the cutter life and they produce a reamed quality, burr free hole in one pass! No step drilling required, and the hole is cut quickly and accurately.

Made from S630 Tungsten-molybdenum & heat treated up to 68RC, these cutters are tougher than standard cutters and will last much longer. Available in a range of sizes from 12mm - 65mm.

## CUTTER KITS

### 3 PIECE SHORT CUTTER KIT

**Includes:** 14, 18 & 22mm diameter, 25mm depth cutters with pilot pins.

### 6 PIECE SHORT CUTTER KIT

**Includes:** 12, 14, 16, 18, 20 & 22mm diameter, 25mm depth cutters with pilot pins.

### 6 PIECE LONG CUTTER KIT

**Includes:** 12, 14, 16, 18, 20 & 22mm diameter, 50mm depth cutters with pilot pins.

**UNIVERSAL FIT**

**A unique addition  
to your workshop.**

Exclusively designed by us, the chop saw stand has universal fittings to provide a solid, sturdy base for most leading chop saws. It's quick and easy to set up so you can cut easily and accurately wherever you want.

**DESIGNED  
IN THE UK**

## KEY FEATURES:

- ✓ Universal clamping system fits most leading chop saws.
- ✓ Telescopic, height adjustable legs for bespoke setting.
- ✓ Foldable legs for simple, neat storage & easy transport.
- ✓ Heavy-Duty all metal construction.
- ✓ Extendable arms with built in end stop for supporting long workpieces.

**COMPATIBLE WITH:**

**S355**  
**CPS**

**and Most Leading Chop Saws**

Table Size	460 x 600mm
Max. Chop Saw Width	322mm
Min. Chop Saw Width	220mm
Table Height	595 - 815mm
Footprint (at floor)	834 x 963mm
Rated Load	225kg
Weight	16kg

# MCS STAND

# UNIVERSAL MITRE CHOP SAW STAND

**The perfect platform for all metal cutting tasks.**

Introducing the Evolution Mitre Chop Saw Stand, designed to support all Evolution chop saws and mitre chop saws, plus other leading brands. Fitted with all-terrain wheels and a PowerLift Gas Strut that does all the heavy-lifting for you, it's the unmissable piece of kit for the jobsite.

**EXTENDIBLE  
MATERIAL SUPPORT**

**CHOP SAW &  
MITRE CHOP SAW  
COMPATIBLE**

## KEY FEATURES:

- ✓ Universal mounting top system fits most leading chop saws.
- ✓ PowerLift Gas Strut takes the strain off 870mm raised operating height.
- ✓ Foldable frame and all-terrain wheels for easy transport & storage.
- ✓ Heavy-Duty tubular steel frame.
- ✓ Extendable arms with built in end stop for supporting long workpieces.

Table Size	820 x 460 mm
Collapsed Size	1460mm x 615mm
Table Height	870mm
Max. Arm Width	1.64m
Rated Load	300kg
Weight	26kg

# ACCESSORIES

## S210CCS TRACK ADAPTER

Part Number: **058-0010**

Stay on track with the S210CCS Track Adaptor. A Heavy-duty Cast aluminium Track adapter makes the S210CCS compatible with Evolution circular saw tracks to guarantee a straight and true cut. Ideal for cutting down sheet steel.

Track not included

## CIRCULAR SAW TRACK

Effortless straight line cutting with the Evolution Circular Saw Track. Available in two sizes with carry bag, clamps and connector bars included.

**ST1400-G2** - 1.4m Saw Track with clamps, connectors and carry bag.

**ST2800-G2** - 2.8m Saw Track with clamps, connectors and carry bag.

## CYCLONE MAGNETIC CHIP COLLECTOR

**Tired of sweeping? Grab yourself a mag stick and effortlessly pick up steel shavings & other debris.**

Simply wave the magnetic stick over the metal shavings to pick them up, carry them over to your scrap bin and pull the plunger to release them. Simple as that!

## CHUCK ADAPTOR

Part Number: **HTA47**

Compatible with EVOMAG42

## COUNTER- SINK 0-30MM

Part Number: **HTA30**

Compatible with EVOMAG42

## 1/2" CHUCK & KEY

Part Number: **HTA153**

Compatible with S28MAG & EVOMAG42

**Extend the life of your annular cutter with our high quality water soluble semi-synthetic cutting fluid.**

When mixing, the recommended ratio is one part coolant to eight parts water\*

**FLUID1000**

**1 LITRE CUTTING FLUID**

**FLUID**

**5 LITRE CUTTING FLUID**

\*Recommendations vary based on application
